

When classwork gets tricky

Tick the ideas that you think will help you to understand the work in class

Before your lesson, read through the work that you completed last lesson

☐

Watch video clips at home, on the topics you are covering in these lessons

☐

Listen to the lesson and write down key points on post-it notes to help you remember them

☐

Avoid the lesson and spend your time worrying about what you're finding hard about the work

☐

Ask the teacher to go over the topic that you are finding tricky

☐

Ask your parents or older brothers and sisters to help you with these subjects

☐
