Snow day Haiku

Can you write a haiku poem about the snow? We cannot wait to read them!

Remember haiku poems follow these rules:

Why write haiku poems?
To share a little something you've noticed about the world.

Who are your haiku poems for?
From the youngest people to the oldest. Anyone and everyone.

What can haiku poems be about?
They are often about anything real or imagined to do with the natural world - but you can write yours about anything you like.

What does a haiku poem look like?
Some people like their haikus to be three lines long – but you don't have to.
Some people like their haikus to have five syllables in the first line, seven in the second and five again in the last line – but you don't have to.

What kind of language will be useful?
Effective poems have a great sound. Have fun with the words and even try choosing some unusual ones!

What is your 'Mumble' goal you are going to work towards this term?

You could draw your own penguin or print off this one and fill the tummy with your goal. You can write or draw your goal.
