Task 3 - Imagine what it would be like on board.

Here we re on my ship -Santa Maria!

We don't really know where we are going!

Don't forget all those sailors stories about sea-monsters and boiling seas.

There are lots of diseases we could die from at sea.

Our little ship could get wrecked in storms.

We have to ration our food and water (we can only have a bit at a time to make it last).

You could:

- imagine you are a sailor and write a diary extract for a day at sea
- write list of all the things that you are scared of
- make a list of all the things you might take on board that could help you with some of these problems.
