

Great Explorers

Neil Armstrong

Now you've learnt about Christopher Columbus, you can find out about my adventures.
Take a look at the videos in these links, they will tell you all about my life and the great adventure I had!

Task 4 - The Journey

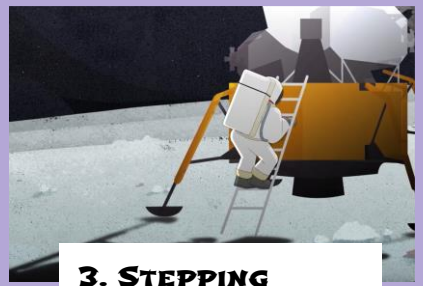

Well that was quite some adventure I can tell y'all!

1. Blast-off

2. Looking back at Planet Earth

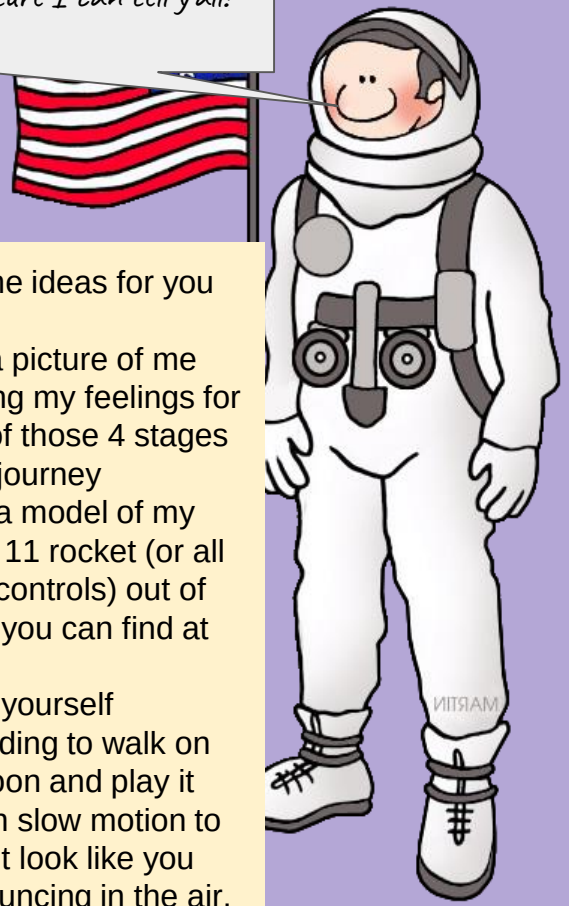

3. Stepping onto the Surface of the Moon

4. Splash-Down back to Earth

Here are some ideas for you to do:

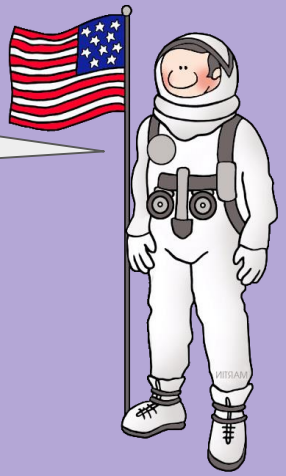

- draw a picture of me showing my feelings for each of those 4 stages of the journey
- make a model of my Apollo 11 rocket (or all of my controls) out of things you can find at home
- video yourself pretending to walk on the moon and play it back in slow motion to make it look like you are bouncing in the air.

Task 5 - Compare

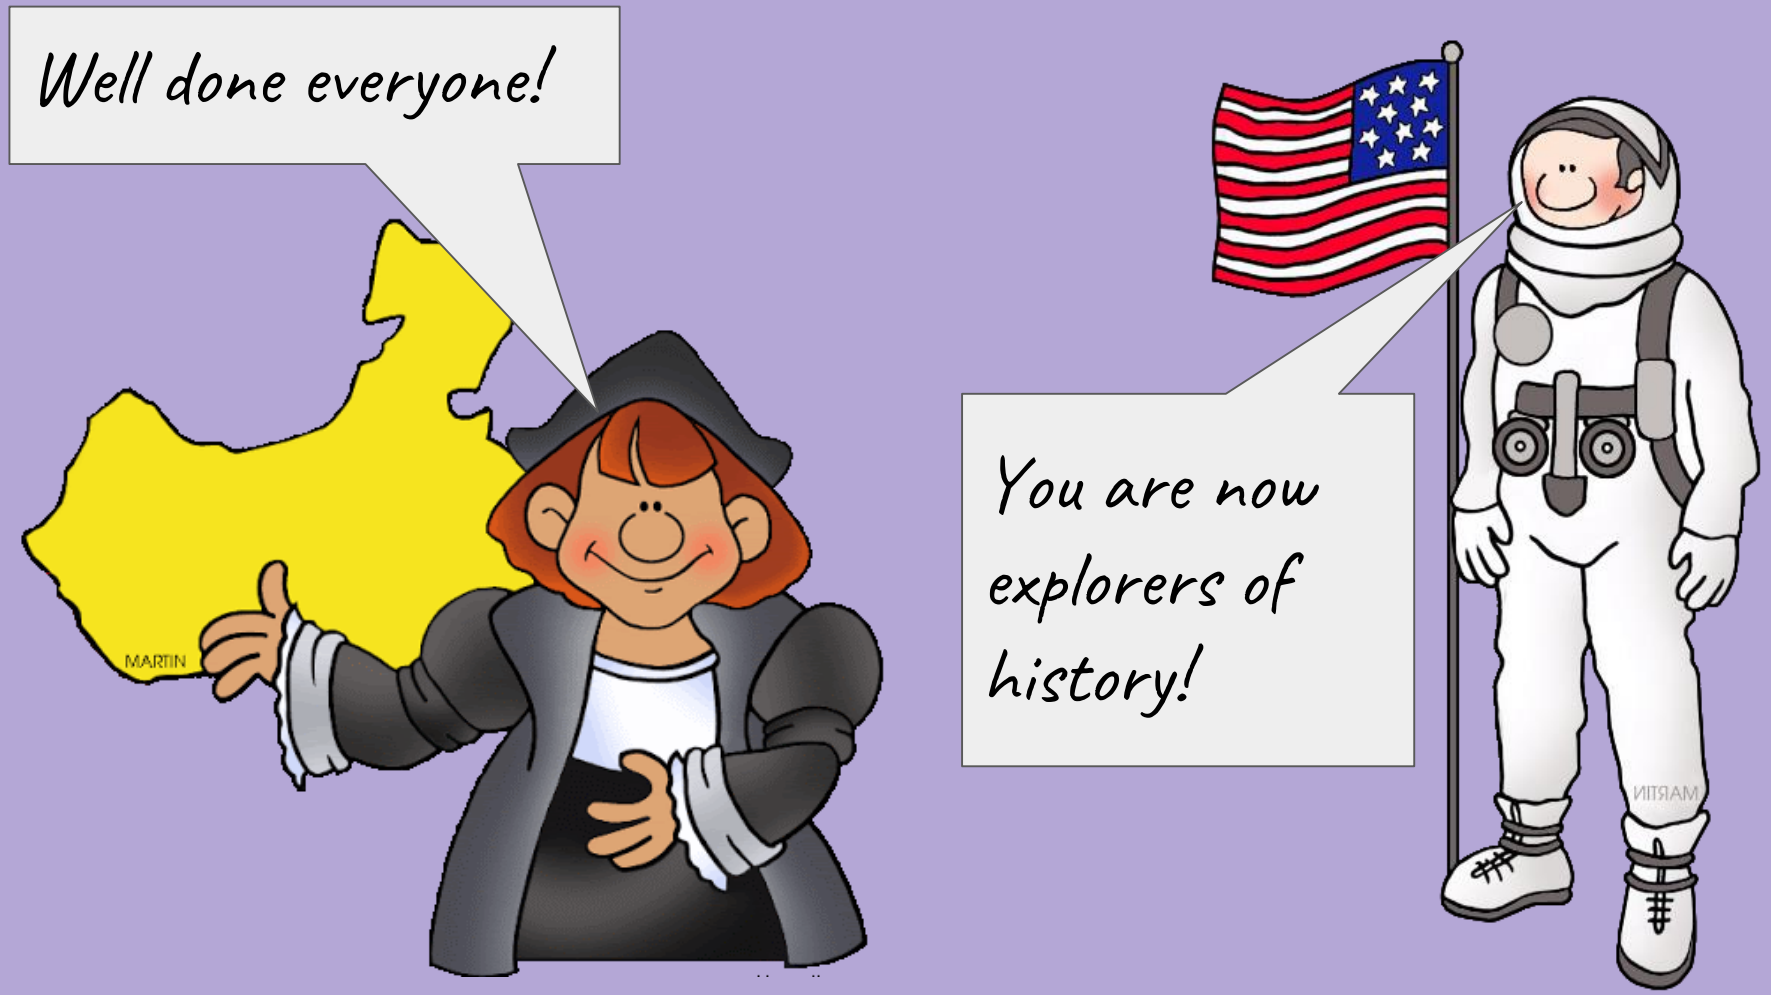

Now you've found out about both of us, see if you can do this challenge. See if you can compare our two journeys and our lives.

Questions

1. What country were you from?
1. Where did you go?
1. Why did you go?
1. How long did it take?
1. What was your (space) ship called?
1. What was scary about your voyage?
1. What did you bring back with you?
1. How do you think your voyage has helped us all?

On a piece of paper, write ***Christopher Columbus*** as a title on one side and ***Neil Armstrong*** as the title on the other. You need to answer the same question for both explorers, those for Columbus on one side and those for Armstrong on the other.

Well done everyone!
You are now explorers of history!
