Dear children,
You probably don't know who I am, but I am from the story you have been enjoying so much. I'm the pet that only 'hops' and 'grribits'. My name is Jeff and I am one of Henry's 27 frogs. All my life I have wondered about where I live and who looks after me.
I saw a TV programme the other day of some frogs like me who lived outside. I can't remember ever going outside before, but it looked so wonderful. Is this where my natural habitat is?

Please don't think I'm being ungrateful! Henry and his family look after me well.They feed me and make sure I have everything I need. I know I am very lucky but I can't help but wonder… who looks after the frogs who live outside? Do they have someone like Henry?

I'm an adult frog now, but I do vaguely remember a time where I didn't look exactly like I do now. I don't have any photographs from when I was younger. Do you know what I would have looked like when I was younger?

Anyway, I know you are probably very busy but I really hoped you could help me find some answers!
Yours hopping,
Jeff

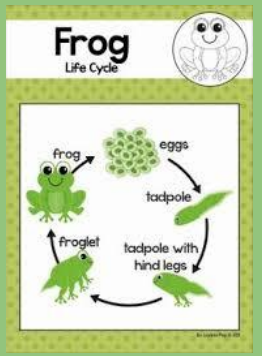

Let’s see if we can help answer some of Jeff’s questions.

Habitat - Where do frogs live?

Diet - what do frogs eat? Where do frogs fit into the food chain?

Appearance - how does a frog’s appearance change? Let’s find out about the life cycle of a frog.

Session 1

Where do frogs live? What do they eat?

*this may take more than one session to complete depending on how the children choose to show their working.

Here are some useful links to help us find out more about frogs. Some of these links are videos for you to watch and some of the links will take you to child friendly websites to read about frogs.

https://www.youtube.com/watch?v=oMFxQsaT274

https://www.youtube.com/watch?v=WajkxaMFpfA

https://www.sciencekids.co.nz/sciencefacts/animals/frog.html

https://www.scienceforkidsclub.com/frog-facts.html

You can present the information you find using a method of your choosing. Here are a few ideas you could choose from...

- Create a poster/leaflet of facts using the subtitles **habitat, diet** and **interesting facts.**
- Start a Powerpoint including pictures and information you find out.
- Create a frog's habitat in a shoe box. You could stick the interesting facts within the habitat.
- Create a simple food chain for a frog.

Session 2

Life cycle of a frog

Here are some useful links to help us find out more about frogs.
These links are to videos that will help explain the life cycle of a frog.

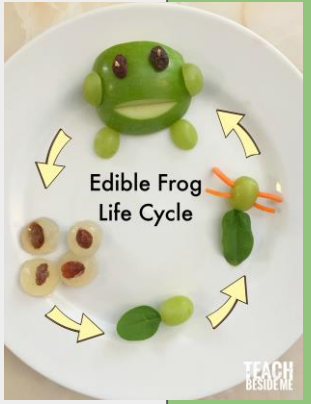

https://www.youtube.com/watch?v=F3ElGMVU6SY

https://www.youtube.com/watch?v=GgCL3JenMCs

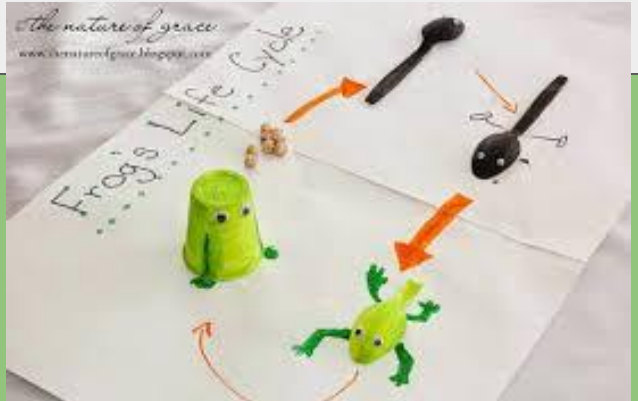

You can present the information you find using a method of your choosing. Here are a few ideas you could choose from...

- Create a poster showing the different stages of a frog's life cycle.
- Continue adding information to your Powerpoint including pictures and information you find out.
- Use playdough to represent the different stages in a frog's life cycle.
- Draw a picture of a frog and label its body parts.
