
Art

This week we going to do some art!

All you need is:

- pen or pencil
- plain paper
- 5 different small objects from around the house
- plenty of IMAGINATION!

All you need to do, is to place your everyday objects on a plain piece of paper and then use your imagination and pencil to turn them into anything you want.

It helps to look at the item really carefully first and try to think what it looks like. Turning it around can help.

# These are my ideas...

Have a look at some of the other pages to give you some ideas.

<u>Make sure you check with grown-up before you use anything that doesn't belong to you!</u>

Why not turn it into a game?

Put some objects in a box and take it in turns to take one out and turn it into a drawing.
