We cannot wait to see what you can create! Have fun!

1. Take your toy on an adventure - this could be in your garden, under your bed or on a day trip. You could take photographs and add speech bubbles. You could write the story of their adventure or you could create an animation. We can't wait to see what your toys have been up to!

2. Create your own Wiki How page - create a page explaining something of interest to you. It just needs to be suitable for primary aged children. This could be a wiki how about your favourite sport, a recipe, a dance, how to be a spy... you choose!
